(54) COMPOSITION FOR ORAL CAVITY

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a composition for an oral cavity excellent in promoting effects on remineralization of teeth and long-term stability.

SOLUTION: This composition for an oral cavity contains a fluoride ion supplying compound, a calcium ion supplying compound and a sugar alcohol. The number of mol of the calcium ion produced by the calcium ion supplying compound is ≥ 0.5 of that of the fluoride ion produced by the fluoride ion supplying compound.

LEGAL STATUS

[Date of request for examination] 27.08.2002

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number] 3556849

[Date of registration] 21.05.2004

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
